A.S.D. INTRECCIANTE

ASD INTRECCIANTE

Multicultural football team, enrolled in the amateur league of 11-a-side football, that became an active example of social inclusion and contrast to racism and intolerance

BACKGROUND

2017-2018

ATAS and UISP together

Raise awareness of the stories of asylum seekers through the organization of football tournaments

BUT

- Sport tournaments were rare
- Intended only for asylum seekers
- Problems related to winning/losing

2018-2019

One unique football team made by persons from different countries (Italy included)

+ 40 young guys under 30: social workers, asylum seekers hosted in residences around the city, university students, local football players, friends

Not only football: meetings, association life, speaking in public, in radio, in schools, helping with organization, third half

EVERYONE actively included!

2020

Move Beyond (EU Project)

TAKE HOME MESSAGE

1. Work with different organizations with different kind of expertise to create something unique!
2. Do not create activities just FOR them (migrants), but WITH them. Allow them to be part of the process, not only participants.
3. Create activities where migrants and locals are equally represented and treated the same way.

This is INTEGRATION through SPORT!

THANK YOU!
